PROJECTS

❖ Project Title :- LTEW (less time eat well)

Language Used :- Java

Web Components :- Servlets, JSP

Client Side Validation :- JavaScript

Server Side Validation :- Java Servlet

Design Pattern :- MVC

Database :- MySql

Web Server :- Apache Tomcat v9.0

Description :- I have developed this **LTEW** project in my college year using Core & Advance concept of Java. The primary purpose of developing the **LTEW** web application is to minimize the time customers spend waiting in long lines, providing a faster and more efficient food ordering process. apart from this Customers can access a variety of food courts and menus in one place only, its totally for restaurants, malls and shopping centers only.

❖ Project Title :- Personal Portfolio

Web technologies :- HTML, CSS, JavaScript

GitHub username :- Dev-ArunYadav

Description :- I have created my Own Personal Portfolio using html, css, javascript. This project allowed me to showcase my skill and accomplishment in a visually appealing and interactive manner. Through the use of these technologies, I was able to create a responsive and dynamic website that reflects my unique personality and professional profile.
